Introduction

In this module, you are given 1 hour to complete this mini tasks. There are 2 parts of mini tasks and the tasks must be completed in order (1A then 1B).

Task 1A

In media folder you will find a screenshot of a custom grid layout. Your task is to reproduce the grid exactly as it is presented. You will need only your HTML and CSS skills for this task. The task should not take longer than 10-20 minutes. Once the task is complete archive the folder and name it as ***xx_task_1a*** (where xx are your initials). Create a copy of the Task 1A in preparation for Task 1B.

Task 1B

In the media folder you will find a screenshot of a single web page. Your task is by using the grid created in Task 1A to reproduce the web page exactly as it is. You can alter and modify the grid to accommodate the design. You should create some effects and animations (e.g., scroll, hover, zoom etc) for navigation menu and images, using either CSS only or JS.

This task should be completed in the remaining time from Task 1A for a grand total of 1 hour.

Colours Used:

	#009FE3
	#343a40
	#621360
